

AP Calculus AB
Summer Assignment
2020-2021

Welcome to AP Calculus AB! My name is Ms. Cranga, and I will be your AP Calculus teacher for the 2020-2021 school year! I am excited to meet all of you in September. In order to be prepared for next year please do the following:

- Join our **Remind** by **texting @mrhscalc21 to 81010**
- Complete our summer assignment using the directions below- This will not be graded; however, it is recommended to prepare for next year

The AP Calculus AB summer assignment is entirely on Khan Academy, <https://www.khanacademy.org>

1. In order to complete this assignment, you must have a Khan Academy account. If you do not have one already, please sign up using your MRHS google credentials.
2. Once logged in, click on "Teachers" on the bottom left hand side and join my class using code: **K46EYM8G**
3. I have created an assignment of 39 problem sets of prerequisite knowledge that is important in your study of Calculus next year. For each problem set, you are to answer the questions/problems.
4. Hopefully, most of the content is familiar, however, each problem has 2 items you can use for additional help.
 - a. You can use the "Go to Lesson Page" link in the upper right corner to go to the set of videos and/or articles that help explain how to do those problems.
 - b. Or you can use the "Watch a video or use a hint" link to get direct access to videos or solutions for that problem.

If you have questions or concerns during the summer, please feel free to contact me on Remind. You may also email me at ncranga@monmouthregional.net. I look forward to working with you this year!
